ALABASTINE!

THE ONLY DURABLE WALL FINISH.

Please Read the Following Testimonial as to its Merits:

SALT LAKE CITY, February 9th, 1886.

Messrs. Sears & Liddle:

GENTLEMEN—It gives me pleasure to comment on the superior work we are now doing with the cement from Alabastine rock, called Alabastine. The effects produced by it are very brilliant in tinting, such as Calistining, Freezing, etc. And I do enthusiastically recommend the article as being one of the best improvements ever offered to the trade or public.

I can always afford to guarantee my work done with this material, so that I am fully satisfied with it, and would recommend it to all fellow workmen.

Respectfully,

W. C. MORRIS,
The Painter.

Catholic Church and the Knights.

New York, April 30.—The action of Cardinal Tachereau, of Canada, in issuing a mandate forbidding Catholics from joining the Knights of Labor, is attracting great attention in labor circles. Archbishop E. Corrigan last evening, referred a reporter to Mr. Quinn. The latter said the subject of the propriety of Catholics becoming Knights had been discussed by officials of the church in New York, but no decision had been reached. We have been watching the Knights, and shall continue to do so. Up to the present time they do not seem to differ much from any other labor societies, and they are not exactly forbidden by the church. True there have been disturbances and possibly violations of the law by the Knights, but that is something the church cannot regulate or be held responsible for. The society has not been mentioned by name as the Free Masons, and others have been in the list of forbidden societies by the church, and is not therefore on the same footing. At present, therefore, with relation to any probable action by the church against the Knights, the matter rests with the discretion of the bishops. They can advise against it and punish anyone for remaining in the society in opposition to their warnings, but in the United States it cannot go so far as to excommunicate Catholics for remaining in the society without first referring the question to the Pope.

Right of Way.

WASHINGTON, April 30.—A majority of the Senate committee on Territories have agreed to report favorably, but with important amendments, upon the bill granting the right of way to the Cinnabar & Clark's Fork Railroad Company across the northern border of the Yellowstone Park. The land to be granted is limited to the actual right of way. The number of stations to be erected within the limits of the park is to be restricted to three or four, and that which is coming to be known as the Platt provision against the watering of stock, probably will be incorporated in the bill. There will be a minority report against the bill.
